The class has been wonderful it is hard to believe that 10 weeks has gone by. I feel like I have learned so much and yet there is so much more to learn. Thank you for being so patient, kind and helpful. The instruction has been superb. Thank you for making this class a wonderful experience for me.

Just like watering a plant, you gave me a little shower of support and guidance and I grew into someone I never thought I could be, a person who has completed something for once in her life. Someone who now can have a future. "Thank You," and "May God Bless You"

I hope you know what a special person you are and how much your support and guidance mean to me.

Thank You, Gina B

Dear Shanna and Angie,

I would like to thank both of you for your dedication and patience. I feel that I have learned so much because of this and the thoroughness of the course. I know I have alot still to learn; therefore, I'm eager to begin my new career. I am very glad I chose this path, and as of now, I contribute alot of that to you guys. Thank you again!

Thanks for everything.

Thank you for opening up many new doors in a secure future for myself and my daughter.

P.S. Deb, you've been great too. You are very patient and laid back, that really helps when you try to learn everything and getting it to sink in.

Sincerely,
Melissa M.

I really enjoyed this class. I feel like I have learned alot. Although I know I have so much more to learn, I feel like I have a good platform to start on. The dentists I have talked too seem to be pretty familiar w/ the school and when they ask what we have learned I am able to list off many things. One dentist asked about instruments and rubber dam set up and I was able to answer him and really know what I was talking about.

Thank you for your patience and a great job

I've had a really good time taking this class. It has been very informative, and an excellent learning experience - especially since I feel like I've learned something. Angie, Shanna, Deb you guys have been very encouraging and given us all great tips on how to be a GREAT Dental Assistant. I'll miss coming to class and learning but I'm glad to have my Sat. back. Thank you again for helping me to learn new things about the Dental field.

This school is the best decision I have ever made.
Your school gives people a ~~sense~~^{feeling} of pride and self-worth.
And that is a big thing to offer someone.

I loved the people teaching the class, the people in the class and the hands on is very helpful. Everything was described clearly and that made this class very pleasant.

I learned a lot. Ya'll opened up a great door for me.

Thank you.

There wasn't anything that I can honestly say, that I didn't like about this course. I think this course was ~~re~~ well planned out. That made it a lot easier. As a matter of fact, I recommended it to my future sister in law. If she moves back, she probably will take this course.

I really liked the school, it was very informative and hopefully w/ my new knowledge I will be able to find a good job.

I love the instructors, & the hands on experience really helps out a lot. The Lab work really lets you just jump right in and learn.

Dear Angie,

I am writing to let you know that I have received a job as a chairside dental assistant. I was hired mid-April for a Dentist in my area. The day I turned in my resumé, they had left a message on my machine at home to interview me. After my working interview, I told them as much as I wanted the job, I just couldn't take a pay cut. They immediately offered me more money, and a better deal on medical insurance. I took the job, and I love it. In fact, they made me head assistant and they hired me an assistant to clean instruments, clean the operatories and set them up. They call the new girl the "assistant's assistant". I am very lucky to have found this office! They're great. They heard about your school and when they learned that I had went there, they were very pleased. I apologize for not letting you know sooner! Thank you, Amanda

THANKS!

Angie & Shawna,

Just a note to express my thanks to you for making my career change a smooth transition. The course is a great overview and foundation for dental assisting. Your patience and methodology are greatly appreciated - along with your recommendation to Dr. Fesler's office. After two weeks, "routine" procedures are starting to come together for me. I am enjoying the expertise of a wonderful trainer! Thanks again for all your help.
